

Hey, you're in a flood-prone area!

Check out and download the materials and board games we've put together!

What to do and what to avoid before, during, and after a flood?

Before a flash flood	
 <div>Know the risk zones Identify areas prone to flooding (rivers, streams, low-lying areas).</div>	 <div>Do not ignore flood warnings or evacuation advice Follow weather alerts and official recommendations.</div>
 <div>Plan evacuation routes Know which routes are available, especially if you live in a risk area.</div>	
During a flash flood	
 <div>If possible, move to higher floors If not, leave the building and go to a safe shelter, away from flood-prone zones.</div>	 <div>Do not cross rivers, streams, or underpasses Whether on foot or by car: never underestimate the power of water.</div>
 <div>Get ready Turn off the main electricity switch and close doors and windows.</div>	 <div>Do not try to save belongings Avoid retrieving objects from basements or garages.</div>
 <div>Follow official instructions Listen to Civil Protection and emergency services via radio, mobile alerts (e.g., EU_ALERT), or loudspeakers.</div>	 <div>Do not use your vehicle Leave it and move to higher, safer ground. Avoid crossing flooded roads or bridges.</div>
 <div>Warn and help others Assist vulnerable people, but always prioritize your own safety.</div>	 <div>Do not overload emergency lines Use the phone responsibly.</div>
After a flash flood	
 <div>Do not return home until authorities give permission Wait until it is officially declared safe.</div>	 <div>Do not enter your home without checking for damage Inspect the structure and watch out for fallen electrical cables.</div>

In case of emergency, call 112.
